(2) ¹For the recognition of examinations completed abroad, agreements between the Federal Republic of Germany and other countries need to be taken into account, such as agreements on equivalencies in higher education (equivalency agreements) and agreements within the framework of university partnerships and double degree programs (cooperation agreements). ²Furthermore, in cases of doubt regarding the equivalency of qualifications, the Central Office for Foreign Education (Zentralstelle für ausländisches Bildungswesen - ZAB) can be consulted.

Section 19 Withdrawal, Absence

(1) ¹A student may withdraw from an examination he or she is registered for (withdrawal). ²If the student does not show up for or terminates an examination prior to its completion, this is considered a withdrawal. ³The same applies to written examinations that are not completed within the given period of time.

(2) ¹Withdrawal is approved upon written request if the student is unable to take the examination due to illness or another important reason and can prove this. ²The request is to be submitted immediately and, in case of illness of the student or of a child the student has custody of, shall include a medical certificate that states the diagnosis and confirms the student's inability to take the examination. ³The examination committee may demand the medical certificate from a physician of their choice. ⁴It is not possible to bring forward an important reason if the student took an examination whilst being aware of an illness or due to negligent lack of knowledge of an illness. ⁵In particular, the criteria for negligent lack of knowledge are met if symptoms of health problems were not reacted to as soon as possible. ⁶The examination committee may entrust the responsible Student Services office of the University of Mannheim with decisions on regular cases.

(3) ¹If withdrawal is approved, the examination shall be deemed not taken. ²Completed examinations or partial examinations remain unaffected. ³If withdrawal is denied, the examination is graded with "insufficenter (0 points)".

Section 20 Cheating, Misconduct

(1) ¹If a student tries to manipulate an examination by cheating or using unauthorized resources, the student will be heard and, as a rule, the respective examination be graded with "insufficenter (0 points)". ²In particular, it is also considered cheating according to sentence 1 if papers according to section 13 subsection 1(2) contain quotations or references from works of others which have not been clearly marked as such by the student.

(2) ¹Students who disturb the proper course of the examination may be excluded by the respective examiners or supervisors. ²In this case, the respective examination is graded with "insufficenter (0 points)". ³In serious cases, the examination committee may exclude the student from taking further examinations after a hearing.

(3) ¹Students may demand that decisions in accordance with subsection 1 and subsection 2(1) shall be reviewed by the examination committee. ²The request shall be submitted in writing to the

Section 21 Annulment of Examination Results

(1) In case students have manipulated an examination by cheating and this fact is revealed after its evaluation, the results of the examinations may be revised retroactively or graded with "insufficenter (0 points)". In case this affects the completion of the master's examination, examinations and coursework may be assessed "nicht bestanden" (failed) and the respective credits revoked.

(2) ¹If the requirements to be admitted to examinations were not met without the student's intent to disguise this fact and if this fact is revealed after the student has received his or her master's degree certificate, this defect is remedied by having passed the examinations. ²If students acted deliberately and cheated to gain admission, the examination may be graded with "insufficenter (0 points)" and consequently considered "failed" ("nicht bestanden").

(3) The affected student is to be heard before a decision is made.

(4) ¹If inaccurate certificates or degree certificates have been issued, those shall be recalled and, if necessary, new ones issued. ²Along with the inaccurate degree certificate, the respective diploma shall be recalled if the master's examination has been considered "failed" ("nicht bestanden") due to cheating.

Section 22 Breaches of Procedure

(1) ¹The examination committee may remedy disturbances of the examination procedure or other breaches of procedure by virtue of office or upon request from a student by deciding on appropriate measures or orders. ²In particular, the examination committee may order that coursework or examinations shall be retaken by all or by individual students or, in case the principle of equal opportunities was violated, grant an extension or impose another appropriate measure of compensation.

(2) ¹Any disturbances are to be reported immediately by the affected student during a written or oral examination:

1. in case of a written examination to the supervisor,

²Any other kinds of breaches of procedure are to be reported by the affected student in due time as soon as the student takes note of the particular breach of procedure. ³The reports according to sentences 1 and 2 shall be entered into the examination minutes. ⁴If the disturbances of the examination procedure or any other kind of breaches of procedure relevant to the evaluation of the respective examination are not reported in due time, they are deemed insignificant.

(3) ¹If the examination committee did not take measures of compensation in accordance with subsection 3 for a disturbance that occurred during an examination and was reported without delay or for other breaches of procedure, or those measures were inadequate, the student shall address his or her request for the necessary measures of compensation to the examination committee in writing immediately after the examination. If the examination consisted of several parts, the request shall be made immediately after the relevant part of the examination. ²The request shall not contain any conditions. ³If the disturbances of the examination procedure or any other kind of breaches of procedure relevant to the evaluation of the respective examination are not reported in due time, they are deemed insignificant.

11 to 14 points	a performance exceeding the average requirements	magna cum laude
7 to 10 points	a performance corresponding to the average requirements in all respects	cum laude

(3) ¹If an examination is assessed by two examiners, the grade derives from the arithmetic mean of the two point scores. ²In case the arithmetic mean is not a full point score according to the table in subsection 2, the examiners assign the next lower point score if they do not agree on assigning the next higher point score. ³If the examiners' assessments of written examinations deviate more than 4 points and an agreement cannot be reached, the chair of the examination committee or a third person determined by the chair decides on a grade and point score that may neither be lower than the lower score nor higher than the higher score assigned by the two examiners. ⁴The assessment procedure shall not exceed four weeks.
